

New, Expanded Services Available: Dockside Facilities Maintenance, Repair Services, and Dry Docking Solutions

GSA MAS 03FAC, Facilities Maintenance and Management

Introduction to Dockside Facilities Maintenance, Repair Services, and Dry Docking Solutions

Along with speed and streamlined contracting, the benefits of ordering through GSA's Multiple Award Schedule (MAS) program now include acquiring services for regular maintenance, general repairs, and/or a complete overhaul of federal marine vessels. This addition, available as part of GSA MAS 03FAC, enables vessel maintenance to be obtained more efficiently than making a comparable procurement in the open market.

These services are provided by prominent marine-industry suppliers with established contracts through the GSA MAS program. These contractors have been pre-approved to do business with the federal government. And while labor rates have already been negotiated, they are open to further discounts.

The geographic coverage includes major coastal ports, as well as inland lakes and rivers. Geographic coverage is constantly being expanded, so be sure to check the GSA eLibrary, (accessible through www.gsa.gov/elibrary) for the latest added contractors.

The new Special Item Numbers (SINs) can cover the full range of vessel sizes, from the smallest patrol craft to aircraft carriers. The services are offered as:

- **SIN 812-001 Dry Docking Services**
- **SIN 812-002 Dockside Maintenance and Repair Services**

Services Included in GSA MAS 03FAC

Whether you need repair and maintenance to keep your vessel functioning or a complete vessel overhaul, GSA MAS 03FAC has it covered. The acquisition experts at GSA make it easy for you to access our vast selection of services, which includes electrical and utility repair, elevator inspection, elevator and escalator maintenance, facilities maintenance and management, fire alarm maintenance, fire suppression system maintenance, grounds maintenance, HVAC maintenance and repair, pest control, energy management services, generator repair, cemetery maintenance, dry docking services, dockside maintenance and repairs, and preparation and painting of ships and aircraft. And, with GSA, you are assured you will be in compliance with the Federal Acquisition Regulations (FAR).

Additional Information

One Country. One Mission. One Source.

Scope of Dry Docking Services (SIN 812-001)

Dry Docking Services include, but are not limited to, the lifting of vessels out of the water for inspection and maintenance, the repair of hull surfaces, and undocking after completion of work. Services also include providing all provisioning, labor, and materials for dry-docking operations for a variety of classes of marine vessels. Services can include:

- **Floating dry docks;**
- **Graving dry docks;**
- **Marine railways;**
- **Vertical lifts; and**
- **Travel lifts and cranes to remove marine vessels from the water for inspection, testing, maintenance, and repair services.**

Scope of Dockside Maintenance and Repair Services (SIN 812-002)

Dockside Maintenance and Repair Services include, but are not limited to, the performance of full inspection, testing, repair and maintenance services for federal marine vessels. These maintenance and repair services include:

- **Preservation of ship structures;**
- **Deck-covering systems;**
- **Welding processes;**
- **Temporary hull access;**
- **Electrical and HVAC systems;**
- **Auxiliary machinery systems;**
- **Shipboard ventilation systems;**
- **Electrical rotating machines;**
- **Generators and motors;**
- **Propulsion systems; and**
- **Tank and void inspection, testing, repair, and maintenance.**

Ordering Guidelines

General ordering information for marine vessel dry docking and dockside repair services and all other GSA MAS offerings is available online at www.gsa.gov/schedules. See "For Customers: Ordering from Schedules."

Of specific note to dry docking and dockside repair services:

- These SINS do not include the application of paints, sealants and adhesives. Preparation and coating services are covered under GSA MAS 03FAC (SINs 801-001 and 801-002). For information about creating a complete vessel painting and maintenance solutions through a Contractor Team Arrangement, please call (816) 926-6760 or e-mail hssmarketing@gss.gov.
- The dry docking SIN includes, but is not limited to, providing all provisioning, labor and materials for dry docking operation of a variety of classes of marine vessels.
- These SINS do not include support for boats and boat packages purchased from GSA MAS 84 (SINs 260-01, 260-03, 260-06, 260-09, 260-12, 260-98 and 260-99).

For more information regarding the new services for marine vessels, questions, technical details about this offering, call (816) 926-6760 or e-mail hssmarketing@gss.gov.
